<b>TITLE:</b> SUPPLIER DISCREPANCY ACTION REQUEST		

**Instructions to Suppliers**

1. The supplier may submit a Supplier's Discrepancy Action Request (SDAR) for the following conditions:
  - a.) To request clarification on drawing, specifications or other purchase order documents.
  - b.) When discrepant material cannot be reworked to the B/P configuration or specification requirements but the supplier considers the product or material or usable or repairable in the discrepant condition.
2. The supplier must complete in its entirety only the fields without asterisks "\*" on the SDAR form. The supplier must provide a detailed summary of the discrepancy(s) including the characteristic(s), feature(s), dimension(s), etc. In addition, please attach sketches, photographs, Lab. Reports, etc., as necessary, to ensure clarification and an expedient disposition.
3. Enter the process code in the appropriate box to indicate where the nonconformance was generated:

P00	Alloy Manufacturing	P14	Eddy Current Inspection	P28	Radiographic Inspection
P01	Abrasive Blast	P15	Forging	P29	Raw Material Source
P02	Abrasive Hone	P16	FPI Inspection	P30	Shot Peening (all types)
P03	Acid Etch	P17	Heat Treatment	P31	Stripping
P04	Airflow	P18	HIP / CIP	P32	Thermocouple Manufacture
P05	Airfoil Repair	P19	Hot Forming	P33	Tooling Manufacture
P06	Brazing (torch, furnace, etc)	P20	Laser Operations (all types)	P34	Ultrasonic Inspection
P07	Casting (all types)	P21	Machining, Conventional	P35	Vibratory finishing
P08	Chemical Milling	P22	Magnetic Particle Inspection	P36	Welding (all types)
P09	Chemical polishing	P23	Mechanical Finishing	P37	Other
P10	Coatings (all types)	P24	Metal Fabrication	P38	Refractory Manufacture
P11	Core Manufacturing	P25	Pattern Assy./ Manufacture	P39	Elemental Raw Materials
P12	Dimensional Inspection	P26	Plasma Spray		
P13	EDM	P27	Plating (all types)		

4. All SDARs must be submitted through your Arconic Power & Propulsion (APP) Procurement representative unless otherwise directed by the purchasing facility's quality assurance representative. The shipment of affected discrepant material or product must be withheld at your facility pending receipt of the approved SDAR from APP.
5. If material is urgently required or you are operating to a just-in-time schedule, the document and disposition may be expedited via fax. Please coordinate this activity through your APP Procurement representative.
6. The supplier must attach one copy of the approved SDAR with each shipment of product or material covered by the SDAR. The shipping invoice must reference the SDAR number and each of the affected containers shall be adequately identified (marked) with the SDAR number. All discrepant material must be segregated from conforming material.

Note: as a supplier to Arconic Power and Propulsion, you are responsible for control of discrepant/ nonconforming materials and products. Discrepant material shall not be shipped without an approved SDAR or authorization of the appropriate APP facility's quality assurance representative. Discrepant materials or products shipped to a APP facility without proper authorization will adversely affect your supplier performance rating and could subsequently result in a severance of business relations.
