Disclaimer

Laws and building and safety codes governing the design and use of Arconic Architectural Products SAS's (AAP) products, and specifically aluminium composite materials, vary widely. It is the responsibility of the owner, the architect, the general contractor, the installer and the fabricator/transformer, consistent with their roles, to determine the appropriate materials for a project in strict conformity to all applicable national, regional and local building codes and regulations. PE products are not available for purchase from AAP for consideration in architectural applications. As Reynobond's reaction to fire varies according to its core, please ensure the product is used in a system that complies with applicable fire safety regulation.
