

Aluminium panels for kitchens, baths and other highly stressed indoor areas:  
**Decorative design and perfect protection  
with GRANDEZZA Interior.**

**NEW! PROTECTION AND DESIGN FOR  
KITCHENS AND BATHROOMS!**

**ARCONIC**  
Innovation, engineered.

# Our high-performance product for kitchens and bathrooms!

GRANDEZZA Interior is delivered as a Reynobond® composite panel consisting of two coil-coated aluminium sheets that are fusion-bonded to both sides of a fire-retardant (FR) core.

The product collection GRANDEZZA Interior with its coating EFFECT & PROTECT is specifically developed for use in the most demanding applications in kitchens or bathrooms. Our product distinguishes itself by the following attributes: for instance, resistance to heat and humidity, moisture-repellent surface as well as protection against corrosion.

The glass effect and the flatness also give a special touch to kitchens and bathrooms. The wide range of attractive colours allows the creation of individual designs. And with Reynobond® Mirror you can even transform the wall into an break-resistant mirror.

The coating EFFECT & PROTECT provides complete protection against:

- Moisture
- Wear
- Dirt
- Rust
- Grease

Advantages for kitchen design:

- Solidity
- Rigidity
- Heat resistance of the surface and fire-retardant (FR) core
- Decorative and effective splash protection against grease and stains
- No visible joints

Advantages for designing bathrooms and showers:

- Moisture-repelling
- Anti-corrosion coating
- Glass effect
- Flatness
- Reynobond® Mirror for break-resistant wall mirror

# Perfect aesthetics through glass effect.

With its special coating GRANDEZZA Interior not only protects, it also creates a special deep light effect as if made of backlighted glass, intensifying the colour. Its flatness as well as its clean and continuous look form the optimal basis for the creation of modern rooms.

## Moisture and dirt repellence.

Because of its moisture and dirt-repellent properties GRANDEZZA Interior is the ideal choice for use working areas which require high hygienic standards as for example splashbacks and kitchens. The surfaces remain cleaner for longer and are also easy to clean.

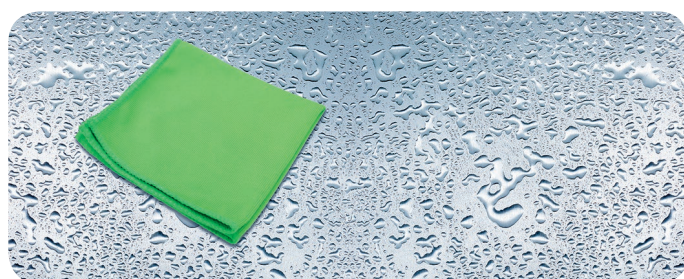

## Solidity and heat resistance.

Thanks to its rigidity and surface properties GRANDEZZA Interior meets the highest standards for kitchen design. With its glass effect coating it is ideal for decorative and effective splash protection against grease and stains behind the stove. It can be installed behind the cook top, with up to a 50 mm space. Next to its high durability the surface is resistant to heat and the core is FR (fire-retardant).

## Easy to maintain.

Next to its protective features GRANDEZZA Interior is designed to be easy to clean. Thanks to the dirt-repellent coating stains and other dirt can be easily wiped clean with a soft moist cloth. Mild detergents should be used to obtain the best cleaning results. Please refer to the Reynobond® Interior maintenance guidelines.

# Long service life.

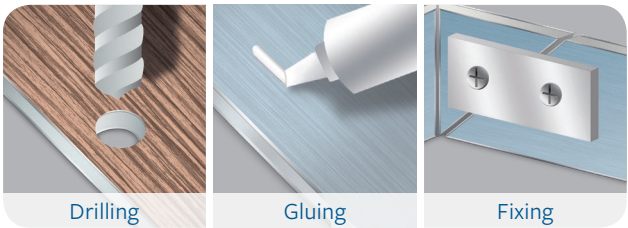

GRANDEZZA Interior was developed to last. It is highly resistant and durable, making it specifically suitable for areas, which are heavily used day-to-day. Please consider general advice and guidelines for maintenance and cleaning.

# Easy to shape.

GRANDEZZA Interior aluminium composite panels can be easily shaped using common machine processes like drilling, cutting, bending, curving and forming. The possibility to fold this product allows the creation of strong and seamless corners.

Because of its light weight, its flatness and easy installation GRANDEZZA Interior is also ideal for renovation projects.

# Standard dimensions at an attractive price.

You can get GRANDEZZA Interior tailored to your needs – in standard width 1,500mm and lengths up to 6,000mm. Please note, that for Reynobond® Mirror, the maximum width is 1,250mm. For further questions concerning the dimensions please consult our sales service.

# Wide range of colours.

Select at GRANDEZZA Interior from a large range of attractive colours in high gloss! Find our complete surface offer inside this brochure.

### Comprehensive service:

We guarantee short delivery times, even for small quantities starting from 125m² and advice, before and during projects.

### Reynobond® GRANDEZZA Interior Offer

<b>Characteristics:</b>	
Product	Reynobond® Interior (0.3 mm in metal gauge)
Applications	Kitchens & Bathrooms
Thickness	4 mm
Core	PE
Coating	EFFECT & PROTECT
Length	From 2m to 6m
Width	1,500 mm
Weight	10,75 kg/m² (1,500 x 4)
Colour choice	Reference on list below and reverse.
<b>DELIVERY TERMS</b>	
Minimum order quantity	From 125 m² - min. 20 panels / length
Delivery terms exworks Maastricht	5 weeks

Cappuccino - 11240 BL

Foggy - 14408 BL

Refined Silver - 14399 BL

Red Rooster - 12157 BL

Forest River - 11241 BL

Interior Refined Aluminium - 10004 BL

Bronze Interior - 14551 BL

Copper Interior - 14367 BL

# Advantages GRANDEZZA Interior.

- ✓ High gloss and protective coating EFFECT & PROTECT with attractive glass effect
- ✓ High water, moisture resistance protection against corrosion
- ✓ Easy to clean and maintain, resistant against wear, grease and dirt
- ✓ Fire classification class B-s1, do for composite panels
- ✓ Low weight
- ✓ High rigidity

- ✓ Flatness
- ✓ Simple shaping and installation
- ✓ Ideal for renovation projects
- ✓ No VOC emissions

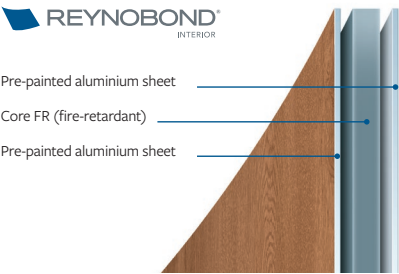

# Technical data GRANDEZZA Interior.

Thickness		
Thickness aluminium composite panel		4mm
Coated aluminium sheet thickness		0.5mm (±0.01mm)
Performance and durability pre-painted aluminium sheet		
Resistance to cracking on rapid deformation	EN 13523 – 5	No cracking, no loss of adhesion
Adhesion after indentation	EN 13523 – 6	100% of adhesion
Resistance to cracking on bending	EN 13523 – 7	Very good flexibility: 0.5T
Surface coatings		EFFECT & PROTECT coating
Fire classification		
Europe	EN 13501	FR: B-s1, do

## About Reynobond®.

With Reynobond® aluminium composite panels, we offer you a high quality product that will upgrade your interior design meeting all requirements of every application needed to create attractive and unique rooms.

## About Reynobond® Architecture, Reynolux® Building and Reynodual® Building

With Reynobond® aluminium composite panels, Reynolux® coil-coated aluminium and Reynodual® double sheet aluminium panels Arconic Architectural Products SAS (AAP) based in Merxheim, France, a subsidiary of Arconic Inc., an internationally leading company for technologies, engineering and manufacturing processes, offers a wide range of products for architecture and construction.

As you can expect from a global company, AAP is certified according to the international standards ISO 9001 and ISO 50001 as well as OHSAS 18001. Reynobond® Architecture, Reynolux® Building and Reynodual® Building panels and sheets are coated and bonded in France. AAP have ISO 14001 certification, indicating their voluntary engagement in reducing the impact of their activity on the environment at all levels: water, energy or waste.

## CAD files and BIM objects

BIM objects library: You can now import our 5 facade systems with our composite panels and pre-painted sheets, as well as our 140 textures in your projects to get the most realistic renderings.
