Pure White		Colorweld 500	50" & 62"	62"x196"	62"x196"

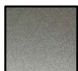

* Per our customer announcement dated February 22, 2018, Reynobond FR will be our standard ACM product offering for all architectural applications, as we will no longer be offering Reynobond PE for architectural use on buildings. Once the existing PE finished goods inventory is depleted all subsequent replenishment will be in FR core.

** New FR core Reynobond finished goods will be added to inventory at initial demand for the product. Please confirm availability prior to order placement. Standard stock-out lead-times will apply to these initial production runs.

- **Reynobond Panel Finishes stocking list is subject to change based upon market conditions and demand.**
- **Reynobond Composite Material is stocked only in the widths indicated above.**
- **All Reynobond materials on this list are available in custom lengths, millimeter thicknesses and cores based on order of a minimum 50 sheets or 2500 square feet, whichever is greater.**

Laws and building and safety codes governing the design and use of AAP's Products, and specifically aluminum composite materials, vary widely. It is the responsibility of the Customer, the owner, the architect, the general contractor, the installer and the fabricator/transformer, consistent with their roles, to make these determinations in strict conformity to all applicable national, regional, state, provincial and local building codes and regulations.
