\*Reynobond FR (fire-retardant) is our standard ACM product offering for all architectural applications. We no longer offer Reynobond PE (polyethylene) for architectural use on buildings.

- **Reynobond Panel Finishes stocking list is subject to change based upon market conditions and demand.**
- **Reynobond Composite Material is stocked only in the widths indicated above.**
- **All Reynobond on this list are available custom based on order of a minimum 50 sheets or square feet, whichever is greater.**

Laws and building and safety codes governing the design and use of AAP's products, and specifically aluminum composite materials, vary widely. It is the responsibility of the owner, the architect, the general contractor, the installer and the fabricator/transformer, consistent with their roles, to determine the appropriate materials for a project in strict conformity to all applicable national, regional and local building codes and regulations. REYNOBOND IS COMBUSTIBLE; IT COULD CATCH FIRE AND BURN. SEE AAP WEBSITE FOR PRODUCT WARNINGS. ANY LABORATORY TESTING INFORMATION PROVIDED BY AAP APPLIES ONLY TO THE PARTICULAR PRODUCT OR ASSEMBLY TESTED AND DOES NOT NECESSARILY REPRESENT HOW PRODUCTS WILL ACTUALLY PERFORM IN USE.

**Contact your area Sales Manager or Customer Service Representative for ordering assistance.**
