

Alcoa Dura-Bright® **EVO WHEELS**

PRODUCT INFORMATION

Along with faster, easier maintenance, you get all the advantages you've come to expect from Alcoa forged aluminium wheels, including:

- Less weight for increased payload
- Unmatched strength
- Full 5 year warranty
- Fuel efficiency thanks to limited weight
- Extended tyre and brake life through improved heat dissipation
- Environmentally friendly

Alcoa Dura-Bright® EVO Wheel surface treatment is available in most Alcoa wheel sizes. Please refer to the Alcoa wheels specifications sheet located online at www.alcoawheels.com for further information.

WARRANTY

The same five year limited warranty that you've come to expect from Alcoa Wheels.

Change your bottom line for the better.

DRIVING YOUR **BOTTOM LINE**™

LIFETIME OF EASY MAINTENANCE

Introducing the next evolution of wheel surface treatments, the new Alcoa Dura-Bright® EVO Wheel.

Dura-Bright® EVO Wheels take the ultimate surface treatment to the next level with TEN TIMES more resistance to corrosion. THREE TIMES more resistant to chemicals including harsh acid cleaning chemicals.

This provides you with easy maintenance and peace of mind knowing the great polished look will last a lifetime.

Dura-Bright® EVO Wheels are now more environmentally sustainable with less hazardous materials used in manufacture.

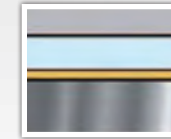

As always to maintain the brilliant polished finish simply clean with soap and water.

For a lifetime of easy maintenance specify Alcoa Dura-Bright® EVO Wheels.

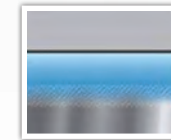

THE ULTIMATE SURFACE TREATMENT

Conventional Coating

- ← Clear Powder Coat
- ← Conversion Coat
- ← Aluminium

Alcoa Patented Treatment

- ← Clear Coat
- ← Transition Zone
- ← Aluminium

Dura-Bright® EVO Wheels have a patented surface treatment that actually penetrates the Aluminium, forming a protective shield that becomes an integral part of the wheel. This prevents cracking, peeling and filiform corrosion often seen in coated wheels.

POLISH WITH SOAP AND WATER
