

Alcoa® Wheels Multi-Piece Hub Cover Systems

Classic, Multi-Piece Styling for that Traditional Look

Alcoa Wheels multi-piece hub cover systems feature a classic design that keeps your ride looking its best and hold their shine without polish.

Easy to Install and Maintenance Free

Easy to install and maintenance free, these systems are available in two Hug-A-Lug® attachment systems depending on stud threads available above the lug nut. Use the stud-gripping, screw-on Hug-A-Lugs® to secure the center axle cover when you have 4 threads available above the lug nut. If less than 4 threads available, select our Hug-A-Lug® attachment system that clamps directly onto the nuts.

Available in both front and rear applications, each system is designed to fit 10-hole hub piloted wheels (285.75mm, 22.5" and 24.5") and backed by a 2-year warranty.

- Classic 11-Piece Design
- Highly reflective superior finish
- Easy to install
- 2-year warranty
- Designed for hub piloted wheels
- Available in front and rear applications
