

ARCONIC QUALITY POLICY

We strive for excellence to enhance customer value by continually improving our business processes and assuring compliance with all requirements

Quality at Arconic is to:

- a. Enhance customer value by developing, manufacturing and providing quality engineered products and services.
- b. Continuously improve our business processes and systems to eliminate defects, prevent quality incidents and gain productivity
- c. Engage all employees in working to standards, proactively mitigating risks and problem solving to root cause.
- d. Assure compliance with all applicable business, customer and regulatory requirements.

Lloyd Barker
Director, Corporate Quality

Effective: November 2016
